# SNUGGLE

ANIMAL & WILDLIFE PARTNERS

Since day one we've donated 5% of our profits to animal and wildlife organizations to give back to the planet that gives us beer. See below for a list of our frequent partners.

With every SNUGGLE, you are helping animals.

WE USE THE WIND..

We are focused on reducing our impact on the planet for three decades. We are leveraging the power of the wind to provide safe water to communities around the world. We're reducing pollution while providing a renewable, economical alternative to electricity. We're seeking out renewable energy options with the goal to procure 35% of our energy needs from renewable sources.

[read more..](#)

WE CARE ABOUT DIVERSITY

We facilitate aggressive diversity hiring goals. Men, women, peoples with disabilities, Indigenous peoples, lesbian, gay, bisexual and transgender/transsexual (LGBT) peoples are all part of SNUGGLE.

## WATER

We use pure water from ancient aquifers, deep lakes and Rocky Mountain springs to make a more refreshing beer.

## BARLEY

We use spring and winter barley varieties to keep your beer fresh all year. Our barley is purchased directly from the organic barley producers in Ontario..

## HOPS

Our "Citra" hops come from Washington. Tasting notes are primarily lemon and grass, with some other lightly sweet flavors thrown into the mix like lime and melon. Citra is fresh, light and sweet.

## YEAST

Brewing yeast is the most essential of the four beer ingredients. Without it, we would just have bitter grain water that never fermented. We know that the correct strain of brewing yeast is critical to a perfect fermentation that's why we carry a wide variety of lager yeast from organic yeast producers in Ontario.
